resting space

(for migrating birds)

2026

an invitation to join migrating birds in their place of rest – arrival, nourishment and trajectory

i

arrival *– dal niente / leggerissimo (from nothing / feather - light)*

begin out of silence, work with distance, fragility and thresholds

ii

nourishment *– intimo / indagando (intimate / investigating)*

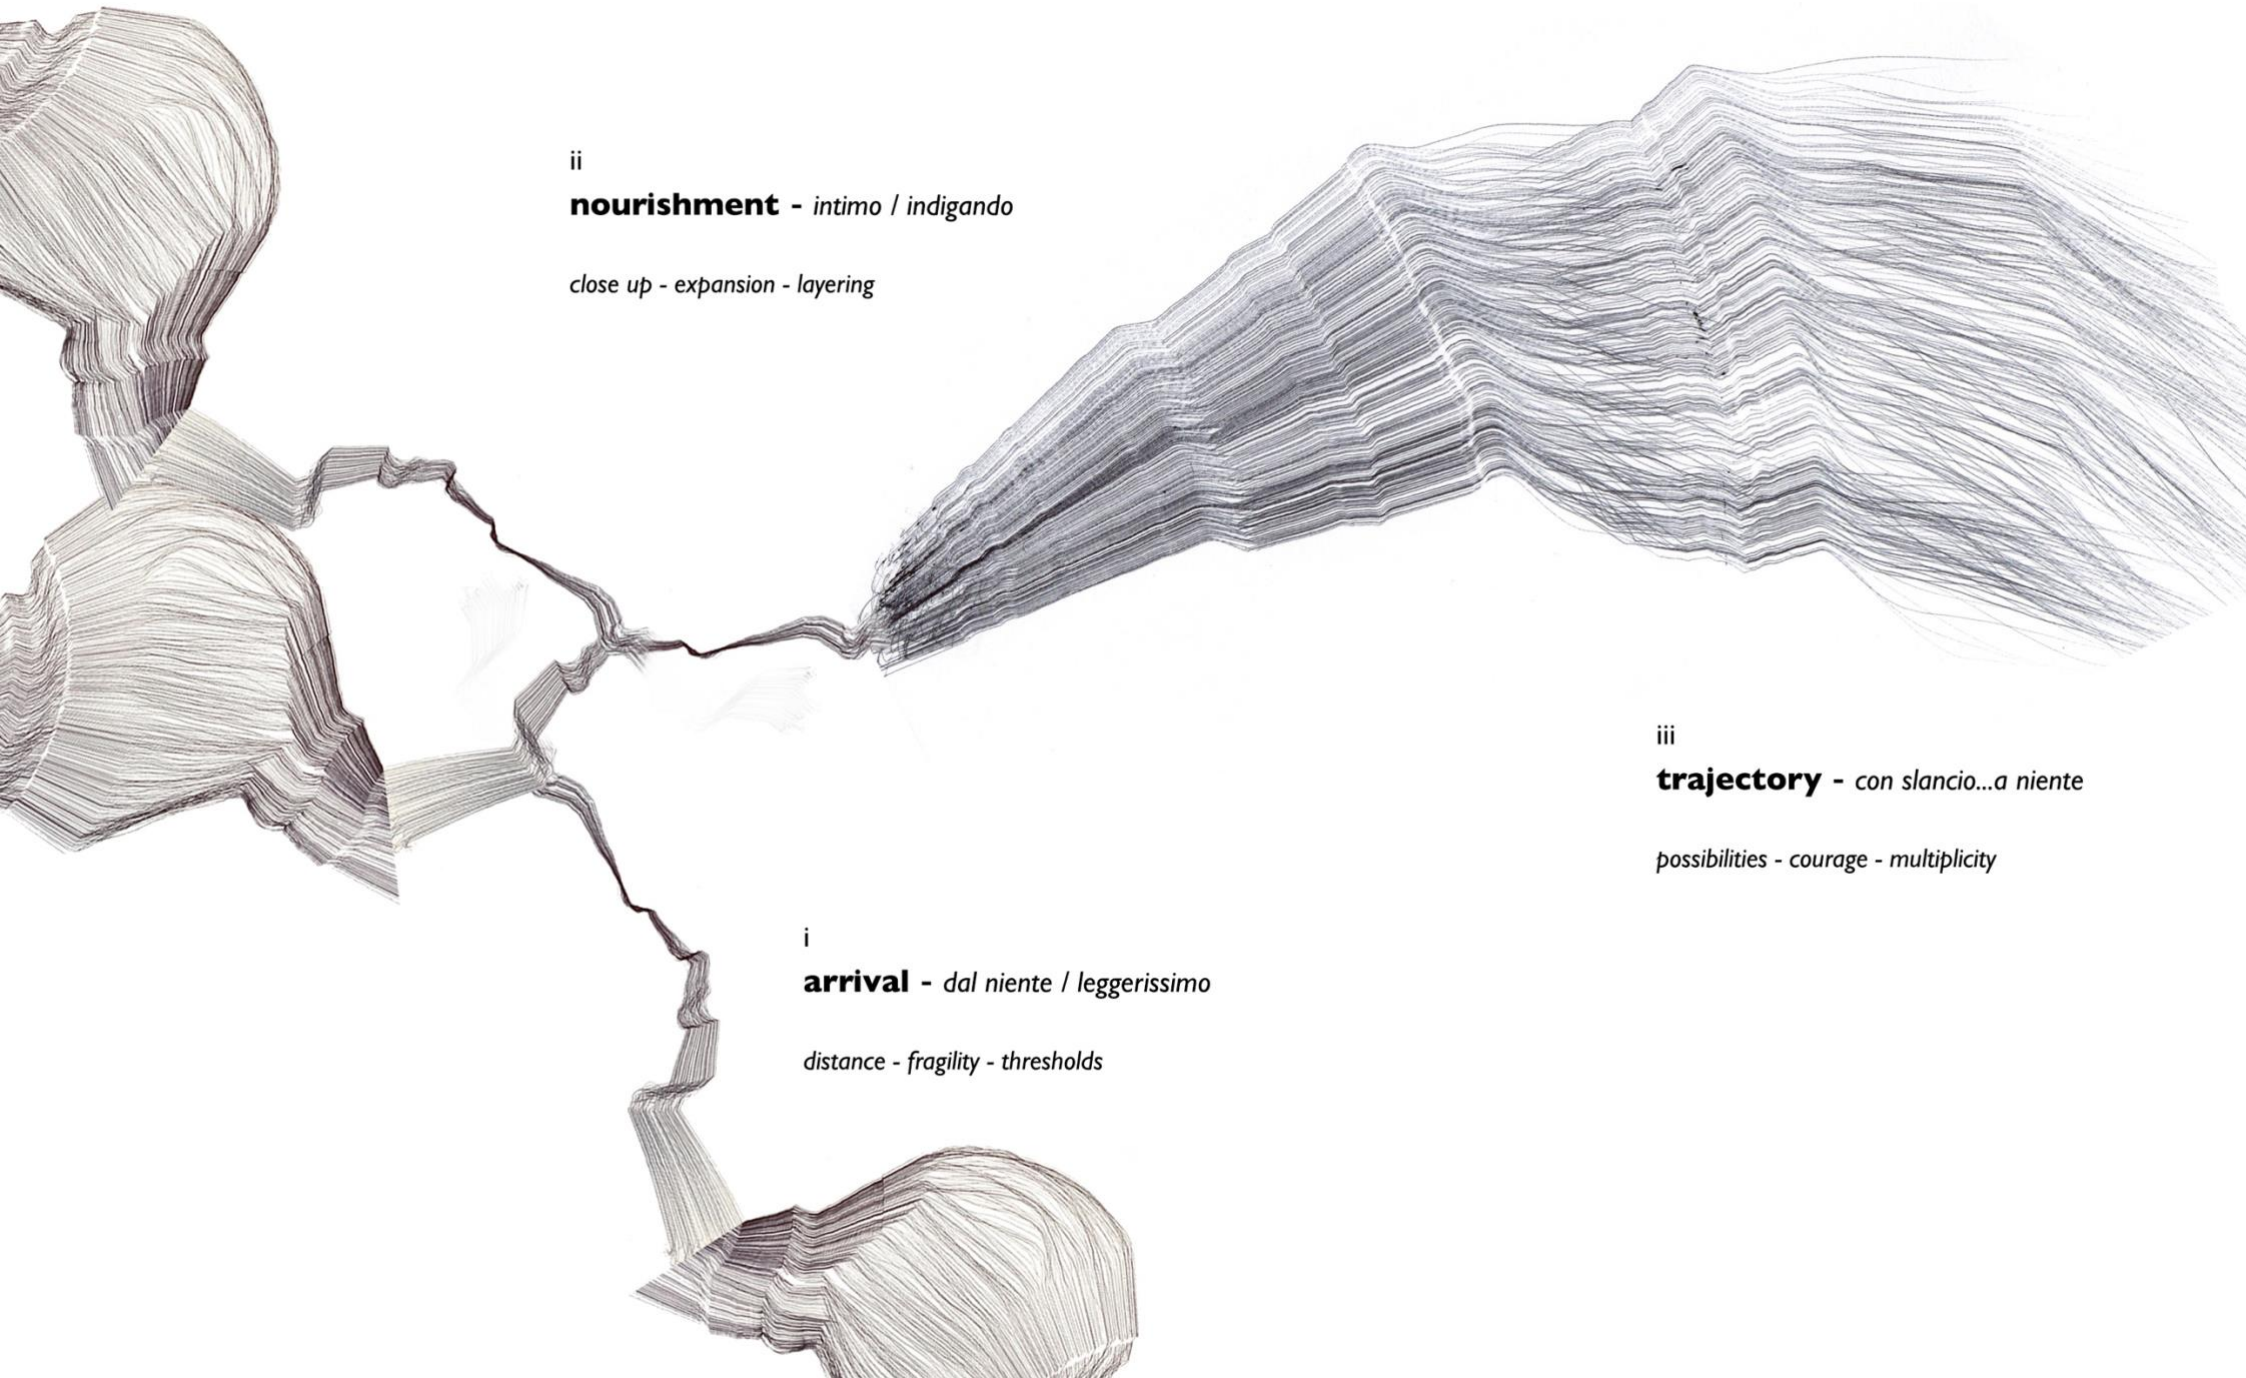

hold the sounds closely through exploration and curiosity

iii

trajectory *– con slancio… a niente (with momentum… to nothing)*

allow what has emerged to gather into movement, force, direction and multiplicity, let the trajectory take shape before gradually fading into silence

performers are invited to listen closely
subtle timbral nuances, room acoustics, the audience, the ambient conditions, wind, the weather, time of the year, day, hour, mood, memories
allow these external / internal resonances to directly inform timing, dynamics and weight of the chosen sounds.

ii

nourishment - *intimo / indigando*

close up - expansion - layering

iii

trajectory - *con slancio...a niente*

possibilities - courage - multiplicity

i

arrival - *dal niente / leggerissimo*

distance - fragility - thresholds
